SUMMARY

Motivated and detail-oriented Computer Science Engineering (Data Science) student with hands-on experience in Android application development, website development, SQL, and Augmented Reality (AR) Lens creation. Passionate about building innovative applications and digital solutions that solve real-world problems. Continuously expanding my technical expertise through self-learning, hands-on projects, and creative problem-solving. Passionate about exploring emerging technologies, quickly adapting to new tools and frameworks, and continuously improving my skills.

PROJECT & EXPERIENCE

Android Application Developer (Personal Projects) 2024 – Present

- Developed Android applications using Kotlin, XML, and Jetpack Compose.
- Built a Dictionary App with word search, pronunciation, bookmarks, daily vocabulary, dark mode, and premium features.
- Created a Sleep Tracking App with sleep analysis, mood tracking, sleep debt calculation, rewards, and leaderboard.
- Focused on intuitive UI/UX and performance optimization.

Website Developer (Personal Projects) 2024 – Present

- Developed responsive websites using HTML, CSS, and JavaScript.
- Built business landing pages, portfolio websites, and product showcase websites.
- Optimized websites for responsiveness, user experience, SEO, and deployment.

Snapchat Lens Creator 2024 – Present

- Created interactive AR lenses using Snapchat Lens Studio.
- Designed face filters, 3D effects, animations, and camera experiences.
- Gained experience in tracking, visual effects, and lens publishing.

Other Projects & Skills 2024 – Present

- AI House Visualization: 3D visualization, AR preview, and AI-based price estimation concept.
- SQL Projects: Database design, SQL queries, normalization, and real-world problem solving.
- UI/UX Design: Wireframes, mobile app interfaces, and interactive prototypes.
- Freelancing: Exploring opportunities in Android development, web development, and UI/UX design.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science & Engineering (Data Science)
University of Mumbai 2023 – Present
Current CGPA: 6.7–7.0 (up to Semester V)

Higher Secondary Certificate (HSC) – Science
Maharashtra State Board 2023
Percentage: 57.60%

Secondary School Certificate (SSC)
Maharashtra State Board 2021
Percentage: 67.50%

ADDITIONAL INFORMATION

- Technical Skills:** Java, Kotlin, Python (Basics), SQL, HTML, CSS, JavaScript
- Tools & Technologies:** Android Studio, VS Code, Firebase (Basics), MySQL, Power BI, GitHub, Figma, Canva, Lens Studio
- Interests:** Android App Development, Web Development, Artificial Intelligence (AI), AR/VR, Gadgets, Gaming, Problem Solving, Fitness
- Languages:** English, Hindi, Marathi

- **Strengths:** Self-Learning, Fast Learner, Adaptability, Curiosity for Emerging Technologies, Creative Thinking, Problem Solving, Consistency, Time Management
- **Soft Skills:** Communication, Teamwork, Leadership, Research, Critical Thinking, Idea Generation

Certificates

- The Joy of Computing using Python - Nptel
- Artificial Intelligence: Search Methods for Problem Solving - Nptel
- Spoken Tutorial – Java, Python, R, PHP and MySQL
- AICTE – EduSkills Internship completed till Cohert 16

Website Developer (Personal Projects)

- **Econ Engineering Website**

Designed and developed the official website for Econ Engineering, creating a modern, responsive, and user-friendly business website. Implemented product showcase pages, company information, and a contact inquiry form while optimizing the site for performance, mobile devices, and a seamless user experience.

Tech Stack: HTML, CSS, JavaScript, PHP, Bootstrap

Econengineering.in

Android Application Developer (Personal Projects)

- **Dictionary App (*Final Phase of Development*)**

A modern Android dictionary application designed to help users expand their vocabulary through quick word searches, pronunciation, bookmarks, daily words, and a clean user interface. The app also includes dark mode and premium features for an enhanced learning experience. It is currently in the final phase of development and will be published soon on the Google Play Store.

Tech Stack: Kotlin, Android Studio, XML, SQLite/API
